

Field Configuration | Overview

Last Modified on 18/04/2024 1:35 pm AEST

The **Field Configuration** feature allows organisations to select the fields they want to be used in the database across members, clubs and teams. By 'Fields', we refer to the information you want to store on your clubs, teams and members (eg. name, email address, phone number etc.).

Setting up fields is an important first step required when initially setting up your database. If it is the Association's responsibility to configure the fields, this should be done before providing login access to your clubs and teams. In some sports, the national or state governing body will want to determine certain fields to be used at all levels of the database. In this case, those fields can be locked so that levels below cannot modify the field settings applied by their parent body.

To access your **Field Configuration** page:

Firstly, login to your [Online Membership Database](#) - If you don't have your login details please contact your State Governing Body or Association.

1. From your Passport dashboard, click on the **Settings Cog** and select **SETTINGS**:

The screenshot shows the GameDay Passport Training dashboard. At the top right, there is a navigation bar with icons for Home, Help, Notifications, and Settings (Cog). The Settings Cog is highlighted with a red box, and a dropdown menu is open, showing the following options: Settings (highlighted with a red box), User Management, Process Log, Audit Log, and Dark Mode (BETA). The main content area is divided into three columns: Details, Contacts, and Vice President. The Details column shows the organization's name, address, and phone number. The Contacts column lists the President, Treasurer, and Secretary with their contact information. The Vice President column lists the Vice President's contact information.

Note: If you are higher than Association-level (I.e. National or State-level) or Club-level, the Field Configuration option is available directly in the Cog Menu as below:

2. Click **FIELD CONFIGURATION**

3. Here, you will see a list of fields and tabs for each of the different fields. Below is an explanation of what each of them refers to.

- **MEMBER FIELDS:** Fields that will be displayed within the member profile when [adding or editing a member record](#).
- **CLUB FIELDS:** Fields that will be displayed when [adding or editing a club](#).
- **TEAM FIELDS:** Fields that will be displayed when [adding or editing a team](#).

5. This will expand to show a variety of options; Select how you would like this field to display.

Fields can be configured to display in several ways:

- **Let levels below choose** - This gives lower levels the ability to choose how they want this to display. This option is best if you are not fussed about whether or not clubs choose to use this field.
- **Hidden** - This means the field does not appear at all.
- **Read Only** - This field will display as optional, however it cannot be edited - only use this option if the answer to this field won't change (e.g Birth Certificate Number, Date of Birth etc.).
- **Editable** - This means that the field will display, but it can be left blank if they don't want to answer this field.
- **Compulsory** - This means that the field will display, and it must be completed before saving.
- **Add Only (Compulsory)** - This means the field will appear as compulsory but it cannot be edited once it has been completed.

There are three options that control where these fields display:

- **For my level:** The field setting selected will apply to administrators within your own database when adding or editing a member record.
- **For levels below:** The field setting selected will apply (and be locked) to administrators at levels below your own when adding or editing a member record.
- **Registration Form:** The field settings selected will apply to all of your registration forms.
